They first take ground against the acquisition of territory; but secondly, if they must take it, they will have no slavery in it; and thirdly, rather than embarrass themselves with the slavery question, they would call home our armies, terminate the War by an ignominious and disgraceful retreat, and quit with Mexico just where we began! But how, unless we take territory, are we to be indemaified for the expenses of the War which has been breed upon us, and also obtain from Mexico what the owes to our citizens? By the way, can the Raleigh Register, or any adinal principles and measures contended for by other Federalist, point us to a single Federal politician or newspaper, in the States of Pennsylvania and Massachusetts, who stands opposed to the Wilmot Proviso? We think not. All of them, we fear, occupy the same ground with Corwin and the Feds of Ohio.

In conclusion, we invite the attention of the Whig people of North Calolina to the above Resolutions. It is for them, and not for their would-be leaders to say, whether they will go in Hon. DIED,

On Monday morning, 13th instant, of Consumption, Mr. George H. Tonnoffske, aged about 35 years, a native of Bavaria, Germany. He was a highly respectable resident of Raleigh of eight years standing. He has left a widow and two children to mourn his loss. He joined the Poles at the battle of Warsaw (1831) against the Russians, where he received some wounds. He was ever warmly attached to our Republican institutions, being a strong advocate of the equal rights of his fellow citizens. Peace be with him! [Com.]

In this Town, on Tuesday last, of Lock Jaw, Mr. Thomas R. Utley, son of Mr. A. B. Utley, of Waxe County, in the 17th year of his age. He came to his death in the following manner. He was grinding a knife and the point caught on the stone and shut upon the joint of one of his fingers, nearly cutting it off, leaving it hanging by a small piece of the skin. The Doctor replaced the finger and boond it up, and directed that it should remain two or three days before the bandage was removed; but before the time expired for it to be examined, it became so painful he could not rest. He went to the Doctor, and when the bandage was taken off it was found that mortification had taken place; the pain extended up the arm, and the 8th day after the accident, he began to feel the glands of his neck getting painful and had to take his bed, and in two days after he died; but not without a hope, for he expressed his willingness to die, as he said he saw his way clear.
